Profile Summary

Results-driven Senior Flutter Developer with 5+ years of experience in building scalable, high-performance mobile applications using Flutter, Dart, BLoC, and Provider. Skilled in state management, UI/UX design, and RESTful API integration, delivering high-performance, cross-platform apps. Proficient in agile methodologies and team leadership, optimizing workflows and improving productivity. Additionally skilled in full-stack web development using React.js, Next.js, HTML, CSS, JavaScript, and proficient in building robust API servers with Node.js and Express. Strong in problem-solving, mentoring, and collaboration, driving innovation, scalability, and business growth.

Projects

•LegalTrack AI - Multiplatform

AI-Powered Case Management Platform

- Developed and maintained React frontend modules for the legal operations web platform, utilizing Zustand for lightweight and scalable state management.
- Architected and created the Flutter mobile app from the ground up using Clean Architecture and Cubit state management, improving code readability, scalability, and ease of feature expansion.
- Partnered with designers, backend developers, and project coordinators to ensure smooth end-to-end delivery of user-focused features.

•Cognitive Nutrition Software for Preschool Children (NutriSmart) - Flutter Application

A mobile app for personalized meal planning and cognitive growth activities for preschool children.

- Utilized Flutter for the front-end and Node.js, Express, and Firebase for the back-end, ensuring a robust and scalable platform.
- Facilitated nutrition tracking system, allowing parents to monitor daily and past food intake, improving meal consistency by 50%.
- Built an admin panel for centralized control, enabling weekly meal scheduling and food item purchases, streamlining dietary planning.

•Artisto Club – Casting Call App (User & Admin) - Flutter Application

Flutter app for casting calls, allowing artists and production teams to post, discover, and apply seamlessly.

- Created a Flutter app with role-based authentication, enabling artists and crew to post and apply for casting calls.
- Integrated Firebase Firestore for real-time updates and Firebase Messaging for instant notifications, increasing engagement by 40%.
- Implemented profile management, application tracking, and crew listing features, improving casting efficiency by 30%.

•VTEE (Kerala State Scheduled Tribes Development Department) - Flutter Application

Built a Flutter app for VTEE, enabling job matching and employment tracking for tribal communities.

- Crafted a responsive User Interface using Flutter widgets, enhancing usability across multiple screen sizes.
- Added Firebase Authentication for secure user login and Cloud Firestore for real-time data updates.
- Optimized network requests and data caching, improving app load times by 40%.

•Indian Naval Air Squadron 310, Goa, India - Kiosk Software Application

An interactive kiosk application for 100+ naval personnel daily, using React.js, Node.js, Express, and MySQL.

- An intuitive UI with a flipbook-style interface, making historical mission records and ranked personnel details easily accessible.
- Incorporated an admin panel with PDF upload functionality, allowing year-wise and month-wise data categorization, reducing manual data updates by 60%.
- Enhanced squadron engagement by preserving mission history from 1960 to present in an interactive and visually rich format, providing easy access to historical data for personnel.

Experience

•Software Developer *June 2025 - Present*

iLeaf Solutions (Kochi, India)

- Worked in multiple web and mobile application projects using Flutter and React across different domains.
- Built and enhanced Flutter mobile applications with clean, scalable architecture, focusing on performance, maintainability, and reusable components.
- Contributed to React-based web applications by developing new modules, integrating APIs, and improving existing UI workflows.
- Collaborated closely with UI/UX designers to translate Figma designs into pixel-perfect, responsive user interfaces for both web and mobile platforms.
- Participated in code reviews, debugging, and performance optimization, ensuring high-quality deliverables across projects.
- Actively involved in Agile development cycles, contributing to sprint planning, daily stand-ups, and timely feature releases.

•Co-Founder & Senior Flutter Developer *August 2023 - April 2025*

Geeks At Designing Solutions LLP(Trivandrum, India)

- Architected and designed scalable and maintainable Flutter applications, improving app performance by 40%.
- Led cross-functional teams in an Agile environment, optimizing workflows and reducing development time by 35% through efficient state management using Provider and BLoC.
- Integrated RESTful APIs, Firebase, and third-party services, enhancing application functionality while maintaining 99.9% uptime.
- Wore multiple hats as a Flutter Developer, UI/UX Designer, and Tester, contributing to a 30% reduction in development time by optimizing workflows.
- Mentored 10+ member Flutter development team, overseeing project roadmaps, code reviews, and Agile workflows to ensure 100% on-time delivery.
- Worked closely with product managers, designers, and stakeholders to gather requirements, leading to a 30% reduction in rework and ensuring seamless translation into technical solutions.
- Published and maintained applications on the Google Play Developer Console, ensuring complainace, updates and performance monitoring.

•Technical and Operations Manager *April 2020 - August 2023*

Geeks At Designing Solutions LLP(Trivandrum, India)

- Built and managed multiple client and internal projects using Flutter for mobile applications and React for web platforms.
- Aligned technical operations with business goals, increasing operational efficiency by 15%.
- Trained and mentored 10+ interns, achieving an 80% full-time conversion rate.
- Optimized project workflows by streamlining processes, implementing Agile methodologies, and improving task allocation, reducing turnaround time by 25% and boosting team productivity by 30%.
- Collaborated with technical and non technical team streamlining communication and reducing issue resolution time by 40%.

Technical Skills

Leadership and Project Management: Agile, Scrum, Jira, Sprint Planning, Time Management, Team Building, Code Reviews, Cross-Functional Collaboration
Mobile & Hybrid App Development: Flutter, Dart, Kotlin
UI/UX Design: Figma, Adobe XD, Adobe Photoshop, Adobe Illustrator, Canva
Cloud/Database: Firebase, MySQL, MongoDB, PostgreSQL
App Deployment: Google Play Developer Console, Firebase App Distribution
Version Control: Git, GitHub
Web Development: HTML, CSS, Javascript, Bootstrap, MERN Stack (MongoDB, Express, React, Node.js), Next.js
SEO and Digital Marketing: Google Search Console, Google Analytics, SEO Best Practices
Programming Languages: C/C++, Python, Javascript, Typescript, Dart
Documentation: MS Office, Google Sheets, Google Docs, Markdown
Soft Skills: Problem Solving, Self-learning, Adaptability, Presentation, Leadership

Education

•Bachelor of Technology in Information Technology *August 2019 - June 2023*

Government Engineering College Barton Hill, Thiruvananthapuram CGPA: 8.03

Achievement

•Best CSI IT Volunteer Award CSI SB GECBH, Trivandrum *June 2023*

- Coordinated logistics and technical support for seamless event execution.
- Worked closely with teams to ensure efficient management and smooth communication.
